

Monday The Virginia Bonded Warehouse Corporation Will Open Its Modern Warehouse for Storing Merchandise of Every Kind

This new bonded warehouse, which will swing open its doors to-morrow to manufacturers, wholesalers and retailers in every line has been constructed to fill a fast growing demand. Every feature has been carefully arranged in order to meet this demand fully and satisfactorily.

The business will be conducted along the lines as that advertised by the American Warehousemen's Association of New York as to prices on various commodities.

The Virginia Bonded Warehouse Corporation was incorporated in 1908, with a capital of \$250,000.00. The men behind it—the officers and stockholders—are thoroughly conversant with the work and its objects. They are men of standing.

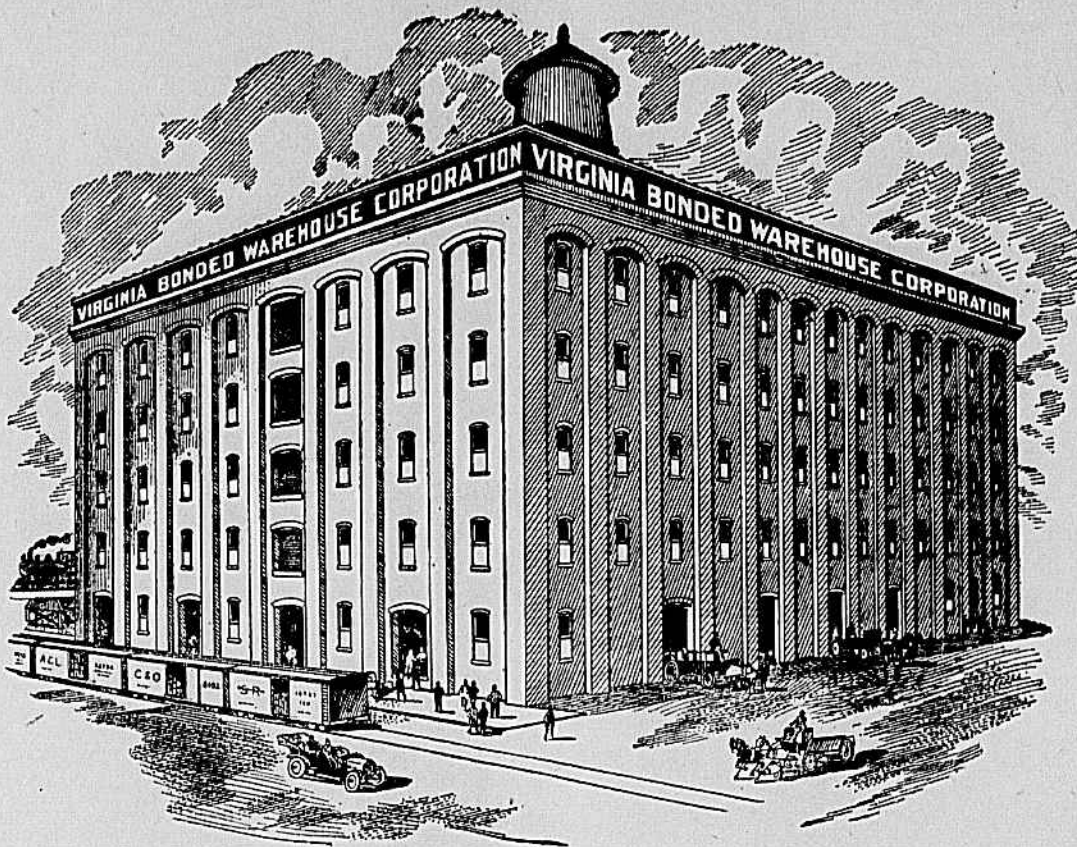

The New Warehouse Building

The new building, cut of which is shown here, has a capacity of 1,250,000 cubic feet. It is mill constructed, five stories high, 130½x132 feet, and has a splendid frontage 130½ feet on the Southern Railway.

It is thoroughly equipped throughout with automatic fire sprinklers, thus insuring the very lowest rate of insurance and safety of goods. Nothing has been left off—nothing has been neglected.

Make Use of This Warehouse

Do not crowd your stores and factories with stock that you do not need at once; do not pay high insurance; do not take the risk. Let us store your goods and issue you negotiable warehouse receipts, that are as good as collateral at any bank—anywhere.

The arrangement of this building is perfect. Nothing has been overlooked or neglected. Fronting on the Southern Railway track, with all other roads willingly supplying cars promptly, the transportation to and from the warehouse is an easy, quick matter.

The object of the warehouse is to store merchandise of every character. We have an agreement with all the railroads to place cars on our sidings.

The Southern, Chesapeake and Ohio, Atlantic Coast Line, Seaboard Air Line, and Richmond, Fredericksburg and Potomac; and also the Old Dominion, Clyde and York River steamship lines, are easily and completely accessible to our plant.

The Advantages We Offer

The advantages this warehouse offers to the manufacturer the wholesaler and the retailer are many and important. Goods we accept are safe, and the insurance will be only one-fourth of 1 per cent. We will issue you negotiable warehouse receipts, which will be readily accepted by any bank as collateral. Goods can be taken out any time, and are always close by and convenient.

To Distillers and Wholesalers

To the Wholesale Liquor Dealer.—In storing your goods with us you get the benefit of a United States bonded warehouse with storekeeper and gauger; you get a very low rate of insurance; you save the local freight rate by ordering in car lots direct from distiller or other bonded warehouses. You get your goods within one hour, and just as you need them; you do not have to pay United States tax until you need the goods; you get a negotiable certificate that is considered by the banks as the very best.

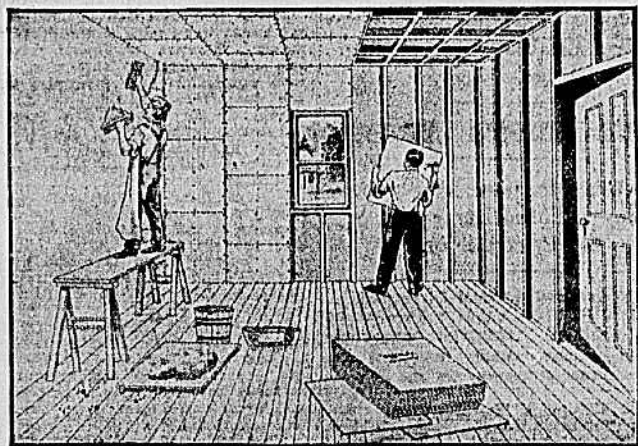

The distillers of Virginia well know the value of such a warehouse; they can store their goods as fast as they make them; borrow money on their certificates to enable them to let their goods stay in a heated warehouse to become more valuable by age. You have a United States gauger on hand all the time, and unsurpassed railroad facilities.

Virginia Bonded Warehouse Corporation

Farms Handled By An Expert

Specializing in all its departments and keeping well abreast of the large real estate firms in the country, Blanton & Purcell, real estate agents and dealers, of 1110 East Main Street, have added a farm department to their big business.

Frank H. Cox, of Ashland, an expert on farms, farm lands and farming, has been placed in charge of this department. Mr. Cox has done some most excellent work in handling farms for rent and sale and in that way attracted the favorable notice of Blanton & Purcell, who enlisted his services for their rapidly developing business. Mr. Cox has had a great many opportunities and has taken advantage of them, and is now in a broader field where he can better apply his great capabilities.
